

# Blue Skies Campaign

Promoting a coal free society to better tomorrow

## COAL EXPORT ACTION

Coal causes climate change, and makes communities sick. With cleaner, cheaper energy available, Montana can create thousands of jobs in renewable energy—but not if we remain saddled to coal.

This August, people from across Montana will converge in Helena, and pressure Land Board members to stop mining at Otter Creek. This won't be just any protest: in the eight days leading up to the Land Board's August 20<sup>th</sup> meeting, hundreds of people will participate in a peaceful sit-in at the Capitol.

We need your help. Whether you participate in the sit-in, or come to support those who are doing so, please join us in Helena between August 13<sup>th</sup> and 20<sup>th</sup>. Come for the whole eight days, or just a couple—either way, breakfast and lodging will be provided.
